kira-intern commented 23 hours ago

This PR introduces a screen that flashes a success or failure screen depending on whether or not there's a match.

Comments, commits and approvals welcome! 🤘

/cc @jasonetco

```
assets/js/model.js
1144  +      # Alert user whether we have a match or not
1145  +      function doPrediction()
1146  +          if model.match = true
```

Mona Lisa 23 hours ago

This will always be true. Looks like you're creating an assignment rather than an equality check...

Suggested change ⓘ

```
1120  -      if model.match = true
1121  +      if model.match == true
```
